

Grade 4 Science Worksheet:2 (DifficultyLevel: Intermediate)

Name: _____

Date: _____

Section A: Fill in the Blanks

1. Carnivores use their sharp _____ to tear meat.
 2. Animals like pandas, which feed mostly on bamboo, are considered _____.
 3. Herbivores like horses have _____ teeth to grind tough plants.
 4. Frogs have a long, sticky _____ to catch insects.
 5. Animals that eat both plants and animals are called _____.
-

Section B: True or False

Write *True* or *False* next to each statement:

1. Snakes swallow their food whole. _____
 2. Hummingbirds drink nectar using their short, flat beaks. _____
 3. Sharks have teeth adapted for grinding leaves. _____
 4. A lion's claws and teeth are adaptations for catching prey. _____
 5. Omnivores like raccoons eat a variety of foods. _____
-

Section C: Multiple Choice Questions

1. What adaptation helps a lion hunt?
 - a) Flat teeth
 - b) Strong legs and claws
 - c) Sticky tongue
 - d) Flexible trunk
2. Which animal uses its beak to drill into tree bark for food?
 - a) Eagle
 - b) Woodpecker
 - c) Elephant
 - d) Bear
3. Herbivores are animals that eat:
 - a) Only meat
 - b) Only plants

- c) Both plants and animals
 - d) Insects
 - 4. What helps a snake consume large prey?
 - a) Flat teeth
 - b) Sharp claws
 - c) Flexible jaw
 - d) Strong beak
 - 5. Omnivores eat:
 - a) Only plants
 - b) Only meat
 - c) Both plants and animals
 - d) Nectar
-

Section D: Match the Animals to Their Feeding Adaptations

Match the animals to their specific adaptations for feeding:

- 1. **Elephant**
 - _____
 - 2. **Bat**
 - _____
 - 3. **Penguin**
 - _____
 - 4. **Chameleon**
 - _____
 - 5. **Antelope**
 - _____
-

Section E: Short Answer Questions

- 1. Why do carnivores have strong jaws and sharp teeth?
 - 2. How does a giraffe's long neck help it in its habitat?
 - 3. What adaptations help a chameleon catch its food?
 - 4. Describe how omnivores can survive in different environments.
 - 5. What is the main difference in the feeding habits of herbivores and carnivores?
-

Section F: Creative Thinking

Draw a scene of a forest, desert, or ocean and show how three different animals are adapted to eat food in their habitat. Write one sentence for each animal explaining its adaptation.

Instructions:

- Complete the worksheet by thinking about how animals eat and survive.
- Be creative in the drawing section and use colors if you'd like!
