

## Grade 4 Math Worksheet: Addition (Difficulty Level: Advanced)

Name: \_\_\_\_\_

Date: \_\_\_\_\_

---

### Part 1: Add the following 5-digit numbers

1.  $15,459 + 87,563 =$
  2.  $52,375 + 8,976 =$
  3.  $26,145 + 13,479 =$
  4.  $34,257 + 21,842 =$
  5.  $45,678 + 32,109 =$
- 

### Part 2: Add the following 6-digit numbers

1.  $674,587 + 728,639 =$
  2.  $397,294 + 766,865 =$
  3.  $578,768 + 427,813 =$
  4.  $867,437 + 785,982 =$
  5.  $967,625 + 399,476 =$
  6.  $267,847 + 789,135 =$
  7.  $671,582 + 189,459 =$
  8.  $999,103 + 884,576 =$
  9.  $674,870 + 907,856 =$
  10.  $786,890 + 876,907 =$
- 

### Part 3: Word Problems Set

Solve the following word problems:

1. A factory produced 456,789 items in the first half of the year and 567,890 items in the second half. How many items did it produce in total over the entire year?
