

## Grade 4 Math Worksheet: Subtraction (Difficulty Level: Easy)

Name: \_\_\_\_\_

Date: \_\_\_\_\_

---

### Part 1: Simple Subtraction

Solve the following problems:

1.  $1,588 - 256 =$  \_\_\_\_\_
  2.  $2,674 - 412 =$  \_\_\_\_\_
  3.  $3,588 - 1,254 =$  \_\_\_\_\_
  4.  $6,789 - 4,653 =$  \_\_\_\_\_
  5.  $5,898 - 2,351 =$  \_\_\_\_\_
  6.  $2,698 - 375 =$  \_\_\_\_\_
- 

### Part 2: Subtraction with Borrowing

Solve the following problems, remember to borrow when necessary:

1.  $4,690 - 2,731 =$  \_\_\_\_\_
  2.  $7,820 - 5,492 =$  \_\_\_\_\_
  3.  $3,645 - 1,298 =$  \_\_\_\_\_
  4.  $9,405 - 6,582 =$  \_\_\_\_\_
  5.  $2,928 - 1,763 =$  \_\_\_\_\_
  6.  $5,453 - 3,290 =$  \_\_\_\_\_
- 

### Part 3: Word Problems Set

Read the word problems carefully and solve them:

1. A bakery has 3,950 cupcakes. They sold 2,367 cupcakes. How many cupcakes are left?

2. There were 6,230 students at a concert. After the concert, 3,642 students left. How many students stayed at the concert?
  3. A store sold 4,550 toys in one month. They sold 1,390 toys the next month. How many toys did they sell in both months?
- 

### **Bonus Challenge**

1. A teacher has 5,640 markers. She gives 1,723 markers to her students. How many markers does the teacher have now?
- 

**-BE THE CHAMPION!-**
