

**Grade 4 Science Worksheet: Soil Pollution\_1**  
**(DifficultyLevel:Advance)**

**Name:** \_\_\_\_\_

**Date:** \_\_\_\_\_

---

**Fill in the Blanks**

1. \_\_\_\_\_ from factories dumped into the ground can make the soil dangerous for plants and animals.
2. Digging up the earth for \_\_\_\_\_ can leave harmful materials behind that pollute the soil.
3. When \_\_\_\_\_ spills onto the ground, it mixes with the soil and harms plants.
4. Harmful chemicals in soil can poison \_\_\_\_\_ that drink water from rivers and lakes.
5. Soil pollution can lead to the loss of \_\_\_\_\_, affecting the variety of plants and animals in an area.

**How does oil pollution harm the soil?**

---

---

**What happens to animals living in polluted soil?**

---

---

**Why does polluted soil make it hard for plants to grow?**

---

---

**Scenario-Based Questions**

1. A farmer uses compost instead of chemical fertilizers. How does this help the soil?

---

2. Your class is organizing a "Clean the Park" day. What steps will you take to reduce soil pollution during the event?

---

3. Imagine you see someone throwing trash on the ground. What would you say or do to help them understand soil pollution?

---
