

**Grade 4 Science Worksheet: Soil Pollution\_2**  
**(DifficultyLevel:Advance)**

**Name:** \_\_\_\_\_

**Date:** \_\_\_\_\_

---

**Fill in the Blanks**

1. Using \_\_\_\_\_ instead of chemical fertilizers can make farming eco-friendly.
2. \_\_\_\_\_ helps reduce the amount of trash that ends up in the soil.
3. Neighborhood \_\_\_\_\_ days help remove waste from parks and streets.
4. Pouring leftover \_\_\_\_\_ into nature can pollute the soil.
5. \_\_\_\_\_ helps prevent soil erosion and keeps the soil healthy.

**How can recycling reduce soil pollution?**

---

---

**Name one farming method that prevents soil pollution**

---

---

**Why is it important to avoid throwing trash on the ground?**

---

---

**Scenario-Based Questions**

Your neighbor uses a lot of pesticides in their garden to keep insects away. What would you suggest to reduce soil pollution without harming plants?

---

After an oil spill on a road, plants nearby begin to wither. Why is this happening, and what could be done to clean up the soil?

You see someone throwing leftover paint into the backyard soil. What would you say to them to prevent further pollution?

---
