

## SUBTRACTION OF FRACTIONS WORKSHEET – MEDIUM (CLASS 5)

Name: \_\_\_\_\_ Date: \_\_\_\_\_

---

### SECTION 1: Multiple Choice

- $3/4 - 1/2 =$ 
    - $2/2$
    - $1/4$
    - $2/4$
  - Before subtracting unlike fractions, we must:
    - Change to common denominators
    - Add numerators
    - Multiply denominators
- 

### SECTION 2: True or False

- $2/3 - 1/6 = 1/2$ : \_\_\_\_\_
  - Unlike fractions need common denominators: \_\_\_\_\_
  - $5/10$  and  $1/2$  are equal fractions: \_\_\_\_\_
- 

### SECTION 3: Solve

- $5/6 - 1/3 =$  \_\_\_\_\_
  - $7/8 - 1/4 =$  \_\_\_\_\_
  - $9/10 - 2/5 =$  \_\_\_\_\_
- 

### SECTION 4: Word Problems

- A bottle was  $3/4$  full. Rahul drank  $1/4$ . How much is left?  
Answer: \_\_\_\_\_

2. Meena read  $\frac{5}{8}$  of a book and then forgot  $\frac{2}{8}$ . How much did she still remember?

Answer: \_\_\_\_\_

---

**SECTION 5: Match the Following**

$\frac{1}{2} - \frac{1}{4} \rightarrow$  \_\_\_\_\_

$\frac{3}{4} - \frac{1}{4} \rightarrow$  \_\_\_\_\_

$\frac{5}{6} - \frac{2}{6} \rightarrow$  \_\_\_\_\_

Options:  $\frac{1}{4}$ ,  $\frac{1}{2}$ ,  $\frac{3}{6}$

---

**SECTION 6: Explain**

Why do we need a common denominator?

---

**SECTION 7: Higher Thinking**

Can the answer after subtracting fractions be zero? Give an example.
