

Grade 5 Math Worksheet: Addition and Subtraction (Difficulty Level: Intermediate)

Name: _____

Date: _____

Missing Number Problems

1. $74235 + \underline{\quad\quad} = 129478$
2. $\underline{\quad\quad} - 52789 = 78654$
3. $36987 + \underline{\quad\quad} = 115832$
4. $103265 - \underline{\quad\quad} = 54723$
5. $\underline{\quad\quad} + 65431 = 139267$

Mixed Operations

1. $78432 + 42765 - 21953 = ?$
2. $91356 - 53498 + 37215 = ?$
3. $85721 + 29874 - 32945 = ?$
4. $72489 - 38297 + 25374 = ?$
5. $98621 + 57324 - 81476 = ?$

Multi-step Word Problems

1. A shopping mall stocked 658732 clothes. 287394 were sold and 123876 were returned. How many are still available?
2. A publishing house distributed 912376 books. 463258 were sent to stores and 312978 were donated to libraries. How many remain?
3. A city bus depot had 786541 buses. 329874 were running and 213679 were in the garage for repairs. How many are left unused?
4. A milk company produced 892134 liters of milk. 435876 liters were packaged and 312453 were converted into dairy products. How much is left?
