

Grade 4 Science Worksheet:1 (DifficultyLevel: Easy)

Name: _____

Date: _____

Section A: Fill in the Blanks

1. Animals that eat only plants are called _____.
 2. A tiger has _____ teeth to tear the flesh of its prey.
 3. An anteater uses its long, sticky _____ to capture insects.
 4. Animals that eat both plants and animals are called _____.
 5. The sharp _____ of an eagle helps it catch and hold its prey.
-

Section B: Match the Animals to Their Adaptations

Match each animal to the correct feeding adaptation by writing the number of the animal next to its adaptation.

1. **Cow**
 - Has broad, flat teeth for grinding plants.
 2. **Lion**
 - Uses sharp claws and teeth to hunt and eat meat.
 3. **Giraffe**
 - Has a long neck to reach leaves on tall trees.
 4. **Frog**
 - Uses a sticky tongue to catch insects.
 5. **Parrot**
 - Has a curved beak to crack nuts and seeds.
-

Section C: True or False

Write *True* or *False* for each statement:

1. Herbivores have sharp teeth to tear meat. _____
 2. Carnivores rely on their claws and sharp teeth to hunt. _____
 3. Omnivores eat both plants and animals. _____
 4. A giraffe's long neck helps it eat insects. _____
 5. Eagles use their talons to catch their prey. _____
-

Section D: Short Answer Questions

1. What kind of teeth do herbivores have, and why?
 2. Name one animal that is an omnivore.
 3. Why does a woodpecker have a strong beak?
 4. How does a snake swallow its food?
 5. What is the main feeding adaptation of a bat?
-

Instructions:

- Answer all the questions in your notebook.
- Be creative and think about different animals' feeding habits!
