

# Shelter for Animals

# 2

## Learning Outcome

In this worksheet, I will learn to:

- name the different types of animal homes.

## Learner's Digest

A variety of animals are found in different parts of the world. They differ in sizes, shapes, colours and the places they live in. Like other living things, animals also need food, water and shelter. Every animal has a house of its own. Animals need houses to rest and protect themselves from danger. Let us look at the names of a few animal homes.

a lion in a den

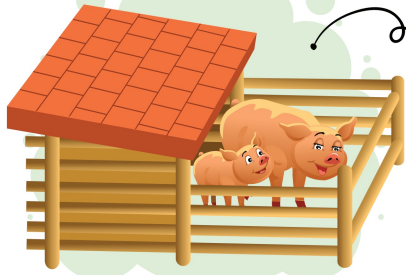

ants in an anthill

a hen in a coop

a spider in a web

pigs in a sty

a bird in a nest

bees in a beehive

a bear in a cave

a frog in a pond

a dog in a kennel

a horse in a stable

a rabbit in a burrow

monkeys on a tree

# Activity 1

I. Look at the images and colour the boxes which have the correct shelters mentioned.

nest

cave

stable

beehive

kennel

burrow

tree

pond

## II. Who am I?

1. I am green in colour and smooth to touch. I eat flies. I live in a pond. Who am I?  
.....  
.....  
.....

2. I am big in size and brown in colour. I eat berries, grasses, insects and fish. I have fur on my body. I live in a cave.  
.....  
Who am I? .....  
.....

3. I have gills and scales on my body. I have fins to swim too. I live in water. I lay eggs.  
.....  
Who am I? .....  
.....

## III. Tick the correct answers.

a. What will happen to the animals and birds if trees are cut down?

Animals will lose their shelters.

Birds and animals will stay with humans.

- b. What can we do to help the animals and birds that live in our neighbourhood?

Put a scarecrow to scare them away.

Keep a bird feeder for birds and a bowl of water for both birds and animals.

## Mixed Bag

- I. Cut and paste the pictures of the creatures on their correct shelters.

## Did You Know?

- Many birds glue their nests together with materials like spider webs, silk and mud.
- Elephants spend most of their day eating (16 hours).
- Just like human beings, monkeys have unique fingerprints.
- A lion's roar can be heard up to eight kilometres away.
