

Grade 4 Math Worksheet: Indian and International Systems of Numeration (Difficulty Level: Intermediate)

Name: _____

Date: _____

Convert Between Indian and International Systems

1. Convert **Ninety-four million** into the Indian System.
2. Convert **Seventeen crore eighty lakh** into the International System.
3. Convert **29,435,768** into the Indian System.
4. Convert **5,64,32,100** into the International System.
5. Convert **Forty-two million nine hundred thousand** into the Indian System.

Write in Expanded Form

6. Expand **8,47,25,936** in both systems.
7. Expand **72,365,421** in both systems.
8. Write **6,19,84,275** in expanded form in both systems.
9. Express **31,429,570** in expanded form using both systems.
10. Write **5,71,63,809** in expanded form in both systems.

Section 3: Compare and Order Numbers

11. Compare: **6,31,48,209** _____ **63,048,209**
12. Compare: **8,54,92,310** _____ **805,492,310**
13. Arrange in **ascending order**: **7,41,25,898** | **7,125,398** | **7,40,253,980** | **7.41 crore**
14. Arrange in **descending order**: **95,00,000** | **95,000,000** | **9.51 crore** | **95 crore**
15. Arrange in **ascending order**: **4,33,52,690** | **41,352,690** | **413,526,900** | **41.3 crore**

Section 4: Solve and Write in Words

16. Solve: **18 million + 9 million** in both systems.
 17. Solve: **7 crore – 30 lakh** in both systems.
 18. Convert **Rs. 6,35,78,000** to the International System and write in words.
 19. Convert **320 million** to the Indian System and write in words.
 20. Convert **Rs. 11.7 crore** to the International System and write in words.
