

Arithmetic Mean

● EASY

Name: _____

Date: _____

Score: ____/____

Key Formula: Mean = Sum of all observations ÷ Number of observations | Range = Highest value – Lowest value

Section A: Direct Calculation

Q1. Find the mean of: **4, 8, 6, 5, 7** (1 mark)

Q2. Find the mean of: **10, 20, 30, 40, 50** (1 mark)

Q3. Find the mean of: **3, 3, 3, 3, 3**. What do you notice? (1 mark)

Q4. Find the mean of: **15, 25, 35** (1 mark)

Q5. Find the mean of: **100, 200, 300, 400** (1 mark)

Section B: Range

Recall: Range = Highest value – Lowest value

Q6. Find the range of: **5, 12, 3, 8, 15** (1 mark)

Q7. Find the range of: **21, 45, 13, 37, 29** (1 mark)

Q8. Find the mean AND range of: **6, 9, 3, 12, 15, 9** (2 marks)
